Westmoreland County Commissioners announce new website features

In an effort to make the Westmoreland County website more of a resource for our citizens and those visiting or choosing to live in our area, we are happy to introduce two new website features:

- 1) Local Business & Resource Directory of Westmoreland County entities.
- 2) Community Job Postings

Resource Directory

The Business and Resource Directory is accessible on the Westmoreland County home page and through the following link: <http://www.co.westmoreland.pa.us/localresources>

If you would like your business, church, organization, etc. published in our directory, use the following link: <http://www.co.westmoreland.pa.us/registerdirectory>. Once the registration form is submitted to the county, please follow the county's social media sites, and share your directory listing on your own social media sites and encourage others to participate. You will receive a confirmation email when the Directory listing is published.

The Business and Resource Directory on the county's website does not imply endorsement of any products or services. The directory is provided solely as a public resource and entities will be asked to certify a disclaimer.

Community Jobs Posting

Community Jobs is an avenue for the community to self-post local job opportunities on the county website.

Citizens using the [Westmoreland County website Employment page](#) can view and subscribe via email or text to both Government (county) and Community Job Postings.

Commissioner Tyler Courtney stated, "Westmoreland County is a great place to live and work. Providing free online access that empowers people to find a resource, business or employer within Westmoreland County will prosper all those involved."

Commissioner Ted Kopas commented, "This latest enhancement to our recently revamped website will help link workers with employers, as well as link visitors to all that Westmoreland County has to offer."
