

# Westmoreland County Community College ADVANCED TECHNOLOGY CENTER

## FAST FACTS

**Location:** 1001 Technology Drive, Mt. Pleasant, PA 15666  
Accessible via I-70, I-76, Route 66, Route 119

**Size:** 73,500 square feet

**Facility:** General classrooms  
Advanced Manufacturing lab  
Computer lab  
Computer Aided Drafting & Design lab  
Computer Numerical Control/Machining lab  
Heating, Ventilation, Air-Conditioning lab  
Electrical lab  
Electronics lab  
Energy Technology lab  
Mechatronics lab  
Metallurgy lab  
Natural Gas Technology Lab - ShaleNET training  
Virtual Welding lab  
Welding lab  
Student lounge & study areas  
Administrative offices  
Corporate Suites

**Architect:** Astorino

**Contractors:** Masscon Inc., general; A-1 Electric, electrical; Marc Services, mechanical; and Enders Plumbing, plumbing

**Funding:** Bond issue authorized by the Westmoreland County Commissioners, Westmoreland County Community College capital budget, Pennsylvania Redevelopment Assistance Capital Program, U.S. Department of Labor, Investing in Our Community campaign, Richard King Mellon Foundation, Hillman Foundation

**Project completion:** Anticipated for summer 2014

**History:** For four decades, WCCC has been a leading provider of workforce education in high priority occupations, particularly in advanced technology. Over the last six years, enrollment in advanced technology programs increased 63 percent and now exceeds 400 students. A 2009 master facilities study revealed the 26,000-square-foot-facility at the

Youngwood campus was constraining capacity and recommended increasing the space and relocation off-campus. The Advanced Technology Center at RIDC-Westmoreland will provide state-of-the-art education and training for WCCC students and incumbent workers and offer flexible, collaborative and customizable job training for the region's manufacturing and energy industries.

For more information, visit [wccc.edu/atc](http://wccc.edu/atc) or call 1-800-262-2103, ext. 4269.
