

VETERANS NEEDED FOR A HEARING RESEARCH STUDY

Study overview: We are recruiting participants for a research study on hearing problems in blast-exposed Veterans who demonstrate normal hearing test results.

Veterans 20 to 50 years of age may be eligible for this study if they meet the following criteria:

- Have normal or near normal hearing.
- Have difficulty hearing in noisy situations (but normal hearing tests) with at least one of the following:
 - » History of blast exposure.
 - » History of mild traumatic brain injury (mTBI) due to blast exposure.
 - » History of PTSD.

OR

- Have normal hearing.
- Have no history of blast exposure, brain injury or PTSD.

Contact Dr. Pratt for more information: 412-360-6409.

To validate this study, please call 412-360-2394.

Proudly serving Veterans since 1925.
