VETERANS EXPERIENCE ACTION CENTER

SUPPORTING PARTNERS: **pennsylvania** DEPARTMENT OF MILITARY AND VETERANS AFFAIRS, **RALLYPOINT**

VA supports Pennsylvania Veterans with the Virtual Veterans Experience Action Center

The U.S. Department of Veterans Affairs (VA) invites all Pennsylvania Veterans to register for the Virtual Veterans Experience Action Center (V-VEAC) being held **October 21-23, 2020** to assist Veterans on VA benefits, healthcare, and other services.

The V-VEAC plans to assist 500 hard-to-reach Veterans such as women, homeless and elderly, to evaluate and remedy issues during these one-on-one virtual engagements. The V-VEAC includes community service and support resource organizations with the capability to file, update and adjudicate **claims**; enroll in VA **healthcare** and schedule **appointments**; provide rapid **housing** and temporary **financial** assistance; and other community resources.

The partnership with the department's [Veterans Benefits Administration-Pittsburg Regional Office](#), [Veterans Affairs Pittsburg Healthcare System](#), [National Cemetery Administration-Northern Atlantic District Office](#), and [Pennsylvania Department of Military and Veterans Affairs](#) will provide direct access for Veterans to answer their concerns regarding:

- VA Claims and Appeals Status and Filing
- VA Healthcare Eligibility and Enrollment
- Burial Eligibility and Pre-need Registration
- VA and State Veterans Benefits Assistance

The Pennsylvania V-VEAC is a state-wide virtual event in which the resident Veterans, family members, caregivers and survivors can be seamlessly connected to the full range of VA and community-based services and resources while focusing on a person-centered approach.

Veterans who register will be given the choice of available times for the requested assistance. An agent or representative will contact the Veteran during that time period to provide personalized assistance as needed.

Veterans are encouraged to register by **October 19th** for this space-limited event at: [REGISTER](#)
