\*\*\*denotes that the district <u>may</u> have additional contract for services with provider; contact provider for specific information about these services\*\*\*

For agencies that have a county-funded contract for outpatient psychiatric clinical services, funding is available to children without insurance <u>or</u> those without third party insurance that will cover these services. Reimbursement is for those services provided under clinical outpatient services only (i.e. individual therapy, family therapy). To be eligible for county funding, the child/adolescent is required to have an intake and liability determination at the base service unit.

For more information about school based clinical outpatient services, please contact Renee Dadey, CASSP Coordinator at 724-830-3617
